VIRGIN ISLANDS

The MCH & CSHCN Program is operated as a single organizational unit and serves as both local and state agency within the Department of Health. This single State agency is authorized to administer Title V funds and is responsible for both Maternal and Child Health and Special Needs Children Services. The Administrative Unit is composed of: the Director of MCH & CSHCN, the Program Administrator St. Croix who oversees clinic management, Office Manager and Fiscal Officer who oversee financial and admininstrative management functions. Programs include: preventive and primary child health care, newborn screening, and subspecialty services.

MATERNAL & CHILD HEALTH (MCH) MEASURES

Title V - MCH National Performance Measures The percent of newborns who are screened and confirmed with condition(s) mandated by their Statesponsored newborn screening programs (e.g., phenyliketonuria and hemoglobinopathies) who receive appropriate follow up as defined by their State. The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey) Percent of children with special health care needs age 0 to 18 whose families report the community-based service systems are organized so they can use them easily. (CSHCN Survey) Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B. The rate of birth (per 1,000) for teenagers aged 15 through 17 years. The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children. Percentage of mothers who breastfeed their infants at hospital discharge. Percentage of newborns who have been screened for hearing before hospital discharge. The percent of very low birth weight infants among all live births. Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester. Title V - MCH National Outcome Measures Title V - MCH National Outcome Measures The ratio of the black infant mortality rate to the white infant mortality rate. The perinatal mortality rate per 1,000 live births. The perinatal mortality rate per 1,000 live births plus fetal deaths. The child death rate per 100,000 children aged 1 through 14. Title V - Selected MCH State Performance Measures Percent of pregnant women who receive no prenatal care The rate (per 1,000) of re	MATERNAL & CHILD HEALTH (MCH) M	<u>EASURES</u>	
confirmed with condition(s) mandated by their State-sponsored newborn screening programs (e.g. phenylketonuria and hemoglobinopathies) who receive appropriate follow up as defined by their State. HOTLINE CALLS

FAMILY PARTICIPATION IN CSHCN PROGRAM

Family members participate on advisory committee or task forces and are offering training, mentoring, and reimbursement, when appropriate.

Financial support (financial grants, technical assistance, travel, and child care) is offered for parent activities or parent groups.

Family members are involved in the 1 Children with Special Health Care Needs elements of the MCH Block Grant Application process.

Family members are involved in service training of CSHCN staff and providers.

Family members hired as paid staff or consultants to the State CSHCN program (a family member is hired for his or her expertise as a family member).

Family members of diverse cultures 2 are involved in all of the above activities.
